

ANDREW LUGONJA

Graphic & Web Design

ABOUT ME

I thrive when working in a team environment, whether it be with other designers or creative colleagues. An integral factor in my creative process is the ability to conceptualize every facet of the problem I am tasked to solve. I combine my passions for design and technology to create unique layouts and elements that push beyond my limits.

I crave learning new techniques and tools to further my knowledge while making progress on each project I have the opportunity to be a part of.
